## ARMORBOSS® BLAST-RATED DOOR (APD-BLAST)

**DURABLE DOORS THAT STAND UP TO UNEXPECTED BLASTS**

ArmorBoss® Blast-Rated Doors are built tough to withstand short-term, high-pressure static loads and other excessive forces that result from strong explosions, blasts, fires and weather events. Our purpose-built, blast-rated doors also include a 90-minute fire rating and are 100% customizable to meet the needs of your application. They can be used in a variety of environments, including government/military, industrial, hazardous-storage, automotive and chemical-processing facilities and laboratories. Blast-Rated Doors are available in single or paired swing configurations.

### ArmorBoss® Blast-Rated Door Benefits

- **Always In Place** - Provides 24-hour blast protection while still allowing access to your facility
- **90-Minute Fire Rated** - Positive pressure endurance test criteria per UL10C
- **Passed Florida Product Approval Testing** - Includes approval for the High Velocity Hurricane Zone (Miami-Dade and Broward counties), FL #39631
- **One-Piece Perimeter Gasket** - Creates a forgiving but tight seal
- **Simple Installation** - Comes fully assembled with authorized hardware and lockset installed
- **Meets Accessibility Requirements** - Threshold is ADA-compliant
